## NCNS PROGRAMMING INFORMATION

*The Neighborhood mission is to provide an enriching, nurturing, and stimulating environment in which each child can develop in his or her unique and special way. Through play-based learning, we strive to nurture children's sense of wonder and prepare them for success in kindergarten and beyond. We place special importance on the social and emotional development of each child, building a good self-image, capacity for self-expression, respect for others and confidence to work well with peers. Each day includes a combination of structured activities and self-directed play, time to explore on one's own and in groups, and opportunities to build upon cognitive, motor, language, and self - help skills.*

*The Neighborhood has five classrooms that offer the following classes during the school year. Each class size is limited to 10 children, the Kindergarten program is capped at 15.*

***Please note that while children must be 2.9 to enter the program, age ranges in other classes may shift depending on the age range of applicants.***
